- Hair Care

ABOUT US

Over 45 years of expertise. More than 120 countries.

Founded in 1978, Lider Cosmetics began its journey as an aerosol manufacturer and has since evolved into a global partner, developing trusted brands and delivering flexible private-label, OEM and ODM solutions for customers worldwide.

Driven by continuous investment in R&D, product development and advanced manufacturing facilities, we produce high-quality, competitive products that comply with international standards while respecting human health and the environment.

Our extensive portfolio spans four major FMCG categories: personal care, home care, auto care and insecticides. From perfumes and deodorants to shaving foams, hair sprays, air fresheners and insecticide sprays, our products are carefully manufactured using advanced technologies.

Today, our brands and private-label products reach millions of consumers worldwide. We serve local and international markets through trusted brands including Repute, Chronic Men, Cool Breeze, Q5, Lady Bella, Girly Talk, Aleda, Majix, Fawaris, Green World, Fresh Room, Hittox and Joker.
